

SCHIZOPHRENIA

Addressing the Burden of Relapse Through Improved Adherence

This important new CME webcourse is designed to enable psychiatrists to meet psychiatric quality measures in the management of schizophrenia, including reductions in hospital re-admissions and enhancements to continuity of care via patient adherence.

Now available **FREE** and on-demand at: Rockpointe.com/SchizoCompliance

For optimum benefit, we urge physicians attending the April 22 meeting in French Lick, IN to take this webcourse prior to the meeting. This online course will provide core information allowing for key questions/gaps to be examined and addressed at the live meeting in a more conversational and intimate discussion.

PROGRAM AGENDA

- I. What is the magnitude of the problem of low adherence in patients with schizophrenia?
- II. How does low adherence impact long-term outcomes and hospitalizations?
- III. How can we identify non-adherence?
- IV. Are long-acting injectable antipsychotics a possible solution?
- V. Do long-acting injectable antipsychotics save money over time?

LEARNING OBJECTIVES

- Explain the magnitude of the problem of low adherence in schizophrenia patients and its impacts on long-term outcomes and rehospitalizations, as well as the need for a proactive approach to prevent and detect non-adherence to treatments
- Identify evidence-based data and tools, including new features from the DSM-5, into daily practice to assess treatment response and adjust therapy as needed to improve treatment compliance
- Assess the health and cost impacts of long-acting injectable antipsychotics for the management of schizophrenia, and determine their role in addressing patient barriers to adherence

TARGET AUDIENCE - This activity is intended for psychiatrists and other health care providers who care for patients with schizophrenia.

ACCREDITATION - This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Potomac Center for Medical Education and Rockpointe Corporation. The Potomac Center for Medical Education is accredited by the ACCME to provide continuing medical education for physicians.

DESIGNATION STATEMENT - The Potomac Center for Medical Education designates this online activity for a maximum of **1.0 AMA PRA Category 1 Credit™**. Physicians should only claim credit commensurate with the extent of their participation in the activity.

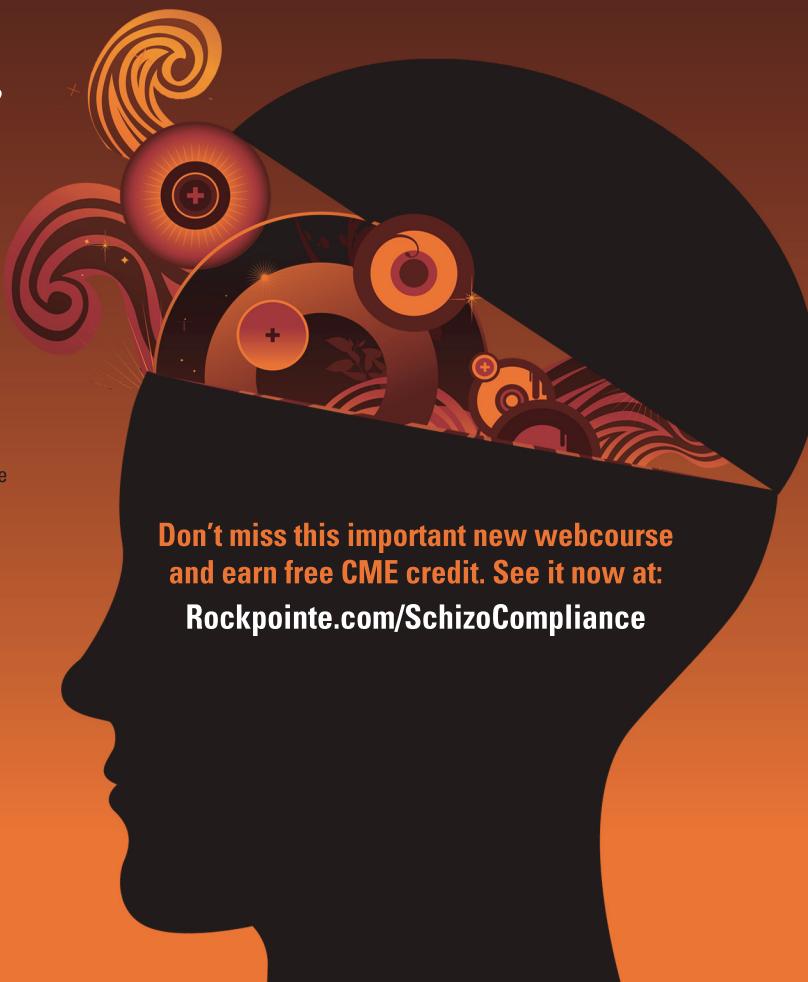

Jointly provided by Potomac Center for Medical Education and Rockpointe

This activity is supported by an independent educational grant from Alkermes, Inc.

PROGRAM FACULTY

LESLIE CITROME, MD, MPH

Clinical Professor of Psychiatry and Behavioral Sciences | New York Medical College | Valhalla, NY
